Dubai Offices

DUBAI OFFICES

Prague Investments Corporation s.r.o. and its group of associated Companies has representative offices in Dubai, the United Arab Emirates. Offices represent our Companies not only in other emirates (mainly Abu Dhabi), but also in other GCC countries and some countries in Eastern Asia.

Dubai representative offices employ multilingual team which is lead by professional American, experienced urban planner, architect and estate developer. Offices provide various services in development, mainly urban planning, architectural services, project engineering, interior design.

Dubai offices have strong cooperation with FXFOWLE Architects, the American architectural company in acquiring and preparing contracts all over the world. There is also cooperation with one of the largest Middle East developer, Emaar.

Offices participate on imposing construction boom in the U.A.E. Also its international portfolio is expanding, one of the biggest projects are high-rise buildings in Shanghai and Beijing, China, and in Hong Kong. Team is currently designing residential towers in Bombay and mixed-use master plan in Moscow.

Both Prague and Dubai offices are prepared to help investors and developers not only in the U.A.E., providing professional architectural, development, legal and financial services. We assist in other particular activities, can provide contacts and consultancy for the foreign investors in the Czech Republic.

Representatives of Prague Investments Corporation, s.r.o. and its associated Companies are very closely connected to Middle East activities and participate in business missions to this part of the world, being organized for instance by Czech Top 100, contributing to expanding intensity of business relations with this territory as well as the Far East.
